CANOE NUMBER

****Canoe Numbers —** In an effort to assist race officials and spectators in identifying teams, especially during night paddling, a uniform system of canoe numbers was established in 2002. The numbers will consist of a single sheet applied to each side of the canoe on the bow. The design of the sheets will include the Sponsor logo, and made of a size which will be applied directly over any number currently on your canoe. The material will be designed for easy removal after the Marathon. **Teams entering by the first deadline may request a specific number.** Every effort will be made to accommodate such requests, however, assignment of the requested number cannot be guaranteed. Only two digit numbers from 00—99 will be assigned. No three digit numbers will be used. Therefore, teams should not print shirts or other fan support items until their canoe number has been verified by the Marathon committee.
