

Tips for registering online for the AuSable River Canoe Marathon through Active:

- The online form is the same as the PDF entry form on the website.
- Required questions are marked with a red asterisk.
- You will need to determine who on the team will be Paddler 1 and Paddler 2. Paddler 1 is will initiate the team registration in Active.
- Paddler 1 is also responsible for the completion of the Team Questions:
 - Support crew information
 - Team Sponsors
 - Time Trials (requested sprint slot time)
 - Canoe Information (manufacturer/model)
- Paddler 1 will also establish a team name and password.
 - Please note that the Team Name is just for registration purposes and will not be used for the race.
- Paddler 1 will receive a confirmation email that contains a link that can be sent to Paddler 2. In addition, Paddler 1 will need to provide the team password to Paddler 2.
- If your browser is idle for 15 minutes, you may lose any information you have entered. A browser is considered idle if you are not actively interacting or typing on the registration form.
- If you have all your information, including payment method, registration should take each paddler less than 10 minutes to complete.
- Active's secure payment system will be used to process online payments.

If you have additional questions please send them to:
